THE HYPOWER® ADVANTAGE

PowerSnap® Tested

What does PowerSnap tested mean to you? Quality control is a priority in our development and manufacturing process. Each unit is tested with power to provide our customers with the highest level of confidence in their power solution.

TotalMarina.com

Shop our online store for the parts you need. It's a fast and easy way to make sure you get the right parts for your power pedestal equipment — for docks, RV parks and home use.

PowerSnap® Exchange

What if your needs change within the first 90 days of purchase? HyPower offers an industry exclusive exchange program. Standard built PowerSnap panels may be exchanged for the power needed to meet the needs of your marina or RV project.

Metering

Need to reduce your expenses by billing back actual utility dollars to the end user? Ask about electric and water meters to increase your revenue, adding value to the services you offer.

Personalized

Create identity by selecting from three standard cap colors (green, blue and white) on your PowerPort®. The option to add a custom logo is available on most units.

Customer Support

You can buy with the confidence that we are here to help you at any point. Give us a call Monday through Friday from 8 a.m. until 5 p.m. CST at 1-800-825-3379.

HOME

THE POWER YOU NEED

FLEXIBILITY

BE PREPARED FOR PRESENT AND FUTURE NEEDS WITH PATENTED POWERSNAP TECHNOLOGY

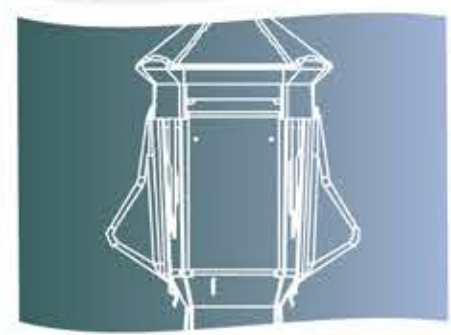

- **PowerSnap**® panels include breakers and receptacles all in one unit
- Easier and safer repairs
- Simple upgrades for more power — no need to rewire or replace a unit
- Save time and money with faster, easier annual maintenance inspections

DURABILITY

MEETS OR EXCEEDS INDUSTRY STANDARDS

- No dents or scratches that rust with impact-resistant, non-conductive UV protected polycarbonate cases
- Wiring that exceeds industry requirements utilizing pneumatically secured connectors
- Brass inserts in all high-stress areas to prevent structural failures

DESIGN

SAVE TIME AND MONEY WHILE IMPROVING CUSTOMER SERVICE LEVELS

- HyPower pedestals are 100 percent UL certified as well as ADA, NEC, NFPA and NEMA code compliant — ISO 9001 registered manufacturing
- Offers safer, more durable rounded corners on units
- Standard electrical that can normally be sourced locally
- Reduced exposed connectors — no visible full-length seams

- Our patented **PowerSnap**® "Hurricane" Weather Base allows you to lift off and remove the head for safe storage
- **PowerSnap**® panels can be removed for winterization, during floods, hurricanes and other severe weather events
- Quickly get back up and operating after inclement weather

FIREPEDESTAL

BE PREPARED FOR EMERGENCIES

- Available on a stand or mounted to a roof support

NOTE: Life ring and 10# fire extinguisher not included

LIGHTCENTER

LIGHTING WHERE YOU NEED IT

- Efficient, cost-saving LED lighting saves you money

HYDROLOCKER

SIMPLY THE BEST LOOKING, STRONGEST DOCK LOCKER AVAILABLE

- Create a space-saving utility center when combined with an EnergyMate®

ACTUAL CUSTOMER REVIEWS

Our marina has been through three hurricanes. Thanks to the PowerSnap base we were able to remove our pedestals and save them from being damaged. We also really like being able to change power from slip to slip by just snapping in a different panel.

— BRIAN W., SPORTSMAN MARINA
ORANGE BEACH, ALABAMA

I am very pleased with my HyPower EnergyMate. It has been under water during two hurricanes and one Nor'easter. When the storms passed, everything came apart easily for cleaning. Even all of my breakers worked! The HyPower advantage is everything plugs into the base where all the permanent wiring is located.

— PHIL R., SATISFIED CUSTOMER

POWERPORT®

FLEXIBLE POWER FOR ONE OR TWO SLIPS

- **PowerSnap**® panels offer 20 ampere receptacles to 100 ampere with a 400 ampere capacity
- Secure with a 360° internal mounting system — all in less than one square foot
- Safe, all-around indirect lighting uses standard energy-saving LED bulbs
- Options let you customize including water, cable TV, Internet and utility-metering

ENERGYMATE®

BIG IN FEATURES...SMALL IN SIZE

- Receptacles from 20A to 50A using the same **PowerSnap**® panels as the PowerPort® for added flexibility
- Mounting options include pole kits and powder-coated, marine-grade aluminum stands (with water options)
- Downward lighting uses standard energy-saving LED bulbs
